Detailed Action

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 4 has been amended for obvious lack of antecedent basis as follows: "...said hinge" should be "said hinge member".

Reasons for Allowance

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

This application is for a suspension load beam.

- **Claim 1** specifies a suspension load beam, which requires:

"...a load beam having an associated head gimbal pivot point and a torsional axis, wherein the hinge and the load beam are formed separately and subsequently joined together, the torsional axis approximately passing through the pivot point."

These features, in combination with the other features of Claim 1, are not anticipated by, nor made obvious over, the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
